Farmers turn to early corn to save year's crop

Summer drought will mean big loss to growers

Cook County farmers are not betting by the roadside and becoming their fate because of weather conditions," says C. Hughes, Cook County farm adviser. He estimates that between 85 and 90 per cent of the corn has been planted and there will be a lot of acreage that will be killed this year because of the drought.

Many farmers have turned to planting corn which will mature early, but which will not give a large yield as regular varieties. Some have devoted the whole acreage to buckwheat, millet, and other short season crops.

A few hot weeks without rain will be a real catastrophe, concludes Mr. Hughes. Growers had plant while ground was wet and gummy. As a result, roots have not gone deep and cannot get a continued drought. Potatoes are in fair condition, but onions and cabbage are withering, although in some cases maggots will do a lot of damage.

That is the picture facing the farmers of Cook County. "Too much rain seems to have been a universal difficulty, beginning with spring in the south," says farm adviser Hughes. "We are most certainly going to have short corn crop and lots of it unless the fall is unusual. This is unfortunate when the world is especially eastern crops are starving after the destruction of a long war. A short crop has many implications. A starving Europe is more assured that the American people have deserted them."

Board approves Hingdale rezoning

With no objections on the part of owners of property in Arlington Heights, the Zoning Board of Appeals recommended to the Arlington Heights village board Monday night to rezone lots 1, 2, and 4 of that tract. These lots are the race track entrance. It is the plan of the owner to use them for the establishment of a hotel. It can not be used as a trailer camp.

Head division Community Fund

Lloyd R. Astrup, of 617 Newbury place, Arlington Heights, has been named co-chairman of the "D" unit in the trades and industries division of the 1947 community fund campaign, according to John D. Ames, general chairman.

The campaign, which will use money with which to start 192 local red feather agencies, will be held in the fall. Mr. Astrup, who was chairman of the beverages and food services section during the 1946 community fund drive, will assist Boyd J. Simmons, chairman of the "D" unit, in the direction of 50 solicitors and 25,000 keymen who will seek contributions from 550,000 employees in 20,000 business and industrial firms and government agencies.

Mr. Astrup is personnel director of Pabst Sales company, 1 N. La Salle street, Chicago.

t. Prospect leads sea home building

All building in May in the Chicago region and the construction of dwelling units of all kinds showed substantial increases over last year, according to reports of 97 building commissions and zoning authorities received by this survey. The all-riding total of \$22,948,660 may be compared with last year's total of \$18,664,220. The May total of dwelling units is 2,029, showing an estimated \$15,605,332, which compares with 1,752 units, \$1,664,976, reported for May a year ago.

Home permits granted in this area for the month included the following towns, number of permits, and amount:

Arlington Heights, 14, \$207,100.
Des Plaines, 13, \$153,425.
Oakview, 11, \$149,750.
Mt. Prospect, 18, \$206,983.
Northbrook, 9, \$82,300.
Northfield, 5, \$45,000.
Palatine, 11, \$72,500.

Our children often by dog

Police Chief Skoog asks parents to advise children to avoid dogs even those with which they are familiar. Four Arlington Heights children were bitten last week. In only two cases was the dog identified and used under observation.

'Hank The Mule'

Hank, the mule, and his girl companion, who will be featured on the Saturday evening program of the Arlington Heights July 4th celebration, promises to be something the children attending the show will long remember. Some say he talks! Come and hear him.

Weather was worse in the year 1916

Dr. B. T. Best, Arlington Hts., who as a hobby has kept accurate weather records for the past 24 years, told Paddock Publications this week that 1947 springtime weather is not as bad as it might have been. It was worse in 1916 when there was snow on the ground the first week of May. The cold continued that year until the week of July 4th. In fact a great many people wore their woolen underwear until July 2nd, when it suddenly warmed up and the temperature took a jump to 96 degrees in one day.

If any of the readers of this paper or farmers whose planting of corn has been delayed, think they have plenty of reason to worry this year, here is some really bad news. When the wet weather stopped in 1916, there was no rain for 84 days.

Dr. Best was one of a party of four who started for Starved Rock July 2nd, 1916, wearing overcoats. Before they had gone 50 miles the overcoats came off. The temperature and weather records maintained by Dr. Best contain much interesting data.

Directors for Arlington Youth Center

by BILL NORTH

Robert Campbell and his wife, Mrs. Lois Campbell, have been appointed directors of the Arlington Heights Youth Center. Mr. Campbell is the boys' physical education instructor for the Arlington Heights Elementary schools. Both Mr. and Mrs. Campbell were graduated from Illinois State Normal University. Mr. Campbell served nearly three years as a naval aviator.

Both of the Campbells have had considerable experience in educational and recreational direction. Mrs. Campbell was social chairman and president of the Women's League at Illinois State Normal University. The Women's League was made up of all the women at the University and was considered one of the strongest organizations there.

Mr. Campbell was active on the Co-op Council at the University for three years and was president of the Council during his Senior year. All members of the school joined the Co-op which brought in big name bands like Stan Kenton, Eddy Howard and others for their dances. By working through the Co-op the cost per person was considerably lower. Mr. Campbell has also spent many summers as Camp Counselor in both Wisconsin and Illinois.

Mr. Campbell who is twenty-six and his wife who is twenty-four are now living at the Elliot Cabins on Northwest Highway, but are looking for a place of their own. The Campbells have been in Arlington since last September.

One of the prime requisites when Ramble Inn was started, was a trained director. With the background and training that Mr. and Mrs. Campbell have, the adult committee and the student committee of Ramble Inn feel that this requisite has been more than fulfilled.

The adult committee which is composed of Robert Blackburn, Rev. Milo Vondracek, H. L. Slikenmyer, Victor Winn, Joseph Weber, Mrs. Joseph A. Wisersky and Mrs. Kenneth W. Kennedy, chairman, should be congratulated on their selection.

Mr. Campbell working with the student committee and adult committee is now planning a series of constructive outings for this summer and is planning ways to make Ramble Inn the greatest, most active, and most pleasant Y. C. in the country.

Mr. R. E. Clabaugh, superintendent of elementary schools states that Mr. Campbell has been very successful in his work in the grade schools. He has done a fine job in working out a well rounded physical education program. Mr. Clabaugh goes on to say that the Campbells are particularly well suited in training and personality to lead the activities at Ramble Inn.

Asparagus makes headlines

Other years it's been stories about the first tomato, large ears of corn, or freak carrots, but this year Paddock Publications is printing its first vegetable story about freak asparagus. In the garden of Mr. and Mrs. Fred G. Wille of Mt. Prospect grew a stalk of asparagus, 18 inches high, 1/2 inch thick, and believe it or not, 3 inches wide. Mr. Wille proudly carried it into the Herald office this week and said, "match this if you can." He estimated that the stalk would make a meal for five people.

Swim pool to open Monday at Arlington

Arlington Heights swimming pool is slated to open this Monday afternoon at 1 p.m., weather permitting. Al Bloom, superintendent of the park district, revealed this week that rain and cold weather had postponed opening of the pool until now, but that expected summer weather this week-end should warm up the water enough so that swimming could begin Monday.

Pool still lacked water as of Tuesday of this week, but valves will be turned on the end of this week. Lifeguards will be on duty Monday with all previous regulations regarding showers, locker rooms, etc. again in force this year, promising local children and adults safe swimming throughout the summer months.

Pvt. Banks returns as recruiting officer

M/Sgt. Bundo announced this week that Sgt. George J. Johnson, who has acted as recruiting officer for the Arlington Hts. area, has been relieved and assigned to Elgin. Pvt. Thomas A. Banks has returned from Elgin to Arlington Heights, which he formerly served.

The local recruiting office is open every day except Sunday at the village hall, where information regarding army service will be cheerfully answered by Pvt. Banks.

Runs in the family

E. F. Laurin, president of Arlington Heights High School board of education, received this week a commencement program of Westmont college, Santa Barbara, Calif. On the same night that Mr. Laurin was presenting diplomas to the graduates of the local high school, his brother, Dr. Roy L. Laurin, as president of the Board of Trustees of Westmont College, was presenting diplomas to its graduates.

Dr. Laurin is pastor of the Presbyterian church of Pasadena, Calif., and is in frequent demand as a speaker.

Modern Trends Cause Changes in Rural Life

Machines cut need for farm children and rural schools

"Reproduction rates (births) are declining faster in rural than in urban areas. The size of rural families, states the report, decreased 7% between 1930 and 1940. Fifty years ago there were from six to eight children in each farm family. It has now dropped to two. Fewer children means fewer children in the small rural school.

Due to mechanization of agriculture the farms have become larger and fewer. One man with modern power machinery can now handle 160 acres, four times as much as in 1860.

The U. S. census of agriculture shows that number of farms in Cook County dropped from 3,996 in 1940 to 3,535 in 1945, a decrease of 451. Average size of farms in the county have risen from 57.4 acres to 67.4 acres.

Figures showing teachers' salaries, appearing in the report, are for the year ending June, 1946. They show that since 1940 increases of 67% have been granted teachers in rural schools, 45% in elementary schools and 43% in high schools.

Wealth of Districts

The rate of school taxes depends upon the wealth of the district. As an example of existing discrepancies in Cook County: Schaumburg Center, for example, enjoys a wealth of \$189,380 behind each resident pupil in average daily attendance while the Giles School district in Norwood Park township has only \$4,478. Schaumburg Center did not find it necessary to levy a school tax in 1944-45, whereas Giles school levied taxes of \$1.42 and \$8.4. Schaumburg Center, despite the lack of a school levy, could spend \$222.67 per pupil whereas Giles school could only spend \$74.31 per pupil.

The Cook County Survey Committee reached the conclusion that it would recommend the reorganization of those school districts now serving an integrated community, where the committee found natural group interest around a common trading, social and cultural center, into a consolidated district.

Approve first pre-fab homes in Arlington

Stork finally stops at Arlington Heights

The fair village of Arlington Heights was bemoaning the fact a few weeks ago that old Mr. Stork hadn't stopped here for 18 months. A special edition of the story was rushed to Mr. Stork and he decided something must be done about that.

So choosing Friday the 13th for the day to again commence deliveries to Arlington Heights he left a little bundle of joy in the nursery of the home of Mr. and Mrs. Arthur Wahl, 1136 N. Dunton. Friends of the Wahls will be glad to know he left a son there this time, as the Wahls already have three daughters, all of which were born in Arlington Heights. They named him Louis H. III, and he weighed in at six pounds.

St. Peter church to replace teachers

St. Peter Lutheran Church of Arlington Heights is busy seeking to replace the teachers of the lower grades in its Christian Day School. All of the lady teachers will not return to the school next fall. Mrs. Randall Hightower, third grade teacher, will fill a vacant position in the Palatine Lutheran School because of a promise made over a year ago. Elda Halfpap, teacher of the second grade, is to be married soon. Judith Seltz, first grade teacher, will return to complete her education at Bethany College, Manakato, Minn. Marcella Rubis, teacher of the kindergarten, plans to continue her studies at Concordia College, River Forest, Ill.

Teacher Arnst, fourth grade teacher, has accepted a call to teach the eighth grade at St. Paul Lutheran School, Melrose Park, and plans to leave about July 15.

A special meeting of the congregation was held last night to fill the vacancies in the faculty. Since Teacher Scheiwe accepted a call to St. John's Church, Forest Park, recently, our call has been sent to Mr. Luther Schwich of Omaha, Nebr.

Cement disappears

Twenty bags of cement and the tarpaulin covering same, were taken from 1141 North Harvard last Thursday night. Police state that they will be glad to investigate any unusual activity that appears suspicious. Just call No. 6. "The next time it might be your home," says Chief Skoog.

Fire works, ball game to head July 4th party

by OSCAR KURTZ

Plenty of opportunity for having fun will be provided at the Arlington Heights Independence Day celebration this year. There will be rides, baseball games, dancing, bingo, and games of skill.

The big entertainment feature of Friday afternoon will be the baseball game between the Arlington Red Wings and the fast Kenosha nine. This will be followed at dusk by the huge fireworks display which has been, even during the war years, the finest display for miles around. Dancing in the Field House Friday and also Saturday nights will be to the rhythm of Wally Hermsdorf and his orchestra. A general admission will be charged to pay expenses.

For thrills, there will be the ferris wheel, without which the carnival spirit would be missing. Next, the tilt-a-whirl for those with strong constitutions and iron stomachs. The merry-go-round will attract the old and young alike, while the tiny tots will enjoy the exclusive use of the miniature train pulled around the track by its own miniature engine.

This year a new game of skill will appear. It uses a bow and arrows with rubber suction-cup tips. The arrows are shot at a scoreboard and they stick where they land on the target. Here is the opportunity for those interested in archery to try their hands and practice the art.

Also there will be four different ball throwing games, using wooden milk bottles, stuffed cats, barrels, etc., operated by the Boy Scouts. There will be that favorite dart game operated by the Den Dads where you try to hit the colored discs glued to

There were no terrible weighty matters before the Arlington Hts. village board Monday night, but as a matter of record (alibis of husbands) adjournment did not come until 12:50 a.m.

The green light was given to the construction on south Hadwood of three "Homeola" homes, of the pre-fab type. The three residents who have been patiently waiting two months for approval are Richard Bracke, Steve Wilczewski and Ray W. Meyer. Original application for the houses were filed in April. Mayor Goedke asked the applicants to wait until the new board could study them. The expectant owners have appeared at a number of board meetings to outline the construction of the homes.

It appeared for a time Monday night that there would be another delay to give aldermen an opportunity to inspect homes already constructed near Blue Island. On the assurance of Trustee Hartman that he had visited them and was willing to vote in their favor that evening, the other aldermen decided to also o. k. the plans, their personal inspection to made here in Arlington after the three homes are erected.

The village board by a 3 to 1 vote, with two members passing their vote refused permission to the owner of a lot to construct a garage on west Wing, in which he would live for one year by which time he had assurance of his contractor that the residence would be built.

Ask rezoning on North Dunton N. Dunton owner, presented a petition for the rezoning of 209 N. Dunton from residential to commercial. If granted the new owner will open a beauty parlor. This property is adjacent to the north end of the present business district.

Twenty-one arrests Police department reported that 21 arrests had been made of \$140 collected. National Bond & Mortgage Co., builder of homes in Arlington Ridge, will be notified to complete construction of sewer services before completing construction of the streets.

Order East well connection

The village has a potential water supply of 800 to 900 gallons a minute from the east well, but until it is connected with the water mains that supply does not mean very much. The contractor will be asked to complete the job at once. Drilling of the north well is now down to 1100 feet. The board is negotiating on the pump.

Louis Clark was reappointed as thistle commissioner.

a large target board as it spins in a vertical plane.

Another ball game will be the one called "cow jumps over the moon." The American Legion may operate its own booth with some kind of game of skill, while the big six booth will be there, as usual.

Of course, there will be refreshment booths to satisfy the hungry and the thirsty. Delicious pop corn will be popped fresh every minute and sold by Ed Schmidt, one of our newer citizens.

Two nights of professional entertainment is scheduled for Saturday and Sunday evenings. These will headline Vincent Gottschalk, the man with a phenomenal memory and a mathematical brain; Claude and Andrea, comedy dancers; Doris Bay, specialty dancer and acrobat; and Hank, the mule. (There's some mystery about this animal.)

Sunday afternoon the second of two ball games of the celebration period will be played by the local Red Wings against Waukegan. This one will be just as exciting as the Kenosha game Friday.

Somewhere near the headquarters you can see the new Buick automobile which will be awarded on the last night of the big celebration.

Legion carnival on this week at Arlington

This week is the big week for the American Legion annual carnival in Arlington Heights, with prize drawings slated for local townsfolk.

Starting this Thursday night, June 13, the festival fun of Merle Guild Post 208 will run on through Sunday night at Recreation Park in front of the Legion home on Douglas street.

Leading the parade of many beautiful prizes to be awarded in drawings are an 8 cu. ft. Hotpoint refrigerator, Hotpoint electric washer and Stewart-Warner combination radio. Other awards will be presented nightly by various local merchants.

Bingo games, plenty of rides and free boxing exhibitions are on the agenda including many boxing matches between Arlington Heights boys.

The Legion carnival is an annual affair in Arlington, and has been a great success the past several years. Again this time a lot of fun is promised those attending with plenty of chances offered the populace to test their skill and luck. Refreshments will be available.

New phone directories out next week

Within the next few days, telephone subscribers in this area will receive new telephone directories in the regular mail deliveries. Mailings are expected to be completed by Tuesday of next week, according to W. C. Lathen, manager for the Illinois Bell Company.

The new directory contains 132 pages of alphabetical and "yellow page" listings, compared with 112 pages in the last previous book issued in September, 1946. More than 5,500 copies are being mailed to subscribers in Arlington Heights, Mt. Prospect, Palatine, Prospect Heights, and Wheeling.

Emergency numbers are listed on the directory's first page. Information on the use of the telephone, placing local and long distance calls, and other telephone tips are carried in the first four pages.

Falls from moving train

Helene Mutter, 205 W. Wing, fell when alighting from the 10:55 p.m. train Monday evening. Her injuries were minor, but painful. The train was leaving the station.

Thieves take gift money during wedding

While the wedding ceremony uniting Stephen J. Urlick, Arlington Heights, and Miss Bessie Vaneck, Cicero, was in progress Saturday, thieves entered the home of the bride and took cash gifts, a watch belonging to Mr. Urlick and a sum of money belonging to the bride's mother. Other wedding gifts were not touched. The bride and groom are on a honeymoon and will reside in Cicero.

School survey outlines needed consolidations

Suggested school consolidations throughout Cook County are a part of the tentative report of the Cook County School Survey Committee, released last week. The report represents a study of school conditions, including qualifications of teachers, their salaries, property assessment per pupil, and the average daily attendance.

The appointment of the committee followed such authorization by the state legislature two years ago. The figures are gathered from 1945 school reports.

After outlining its findings which included the number of elementary and high school districts, it recommended a group of consolidations of elementary schools and the organization of four new high school districts. It also advised the annexation of considerable territory to existing high school districts.

Present Situation

There are 172 elementary school districts in Cook County, which operate 47 one-room schools, 23 two-room schools, 14 three-room schools, 29 four-room schools and 188 five-room or more schools.

Special teachers employed in these districts include 151 music supervisors, 88 art supervisors, 99 kindergarten teachers, 222 physical education instructors, 88 domestic science teachers, 157 industrial arts instructors, 20 specialists for handicapped children and six teachers of sight saving classes.

None of these specialty teachers are employed in some of the rural schools that have made practically no progress in 95 years, says the report, which continues with "That this condition should be allowed to continue is unthinkable. With the administrative organization available whereby inadequacies may be remedied, it is only the consent of the people that is needed for progress. . . . The report of the committee offers the information necessary for the formation of sound judgment on reorganization advantages."

Consolidation Recommendations

Consolidation recommendations in northern Cook county are:

Schaumburg township into one district.

Barrington township into two districts.

No recommendations are made for Palatine township, which has consolidated all of its schools except one, district 18. District 10, west of district 18, is also an orphan.

Hanover township into one or two districts.

Elk Grove, except districts 56 and 57, into one district (accomplished).

Wheeling township, districts 20, 21 and 22 into one district; districts 57, 23 and 26 into one district; districts 25, 24 and 56 into one district.

Northfield into one district.

Niles township into two districts.

Leyden into two districts.

Maine township into two districts.

High School Recommendations

Hanover and Schaumburg form one high school district.

Northbrook consolidation of five school districts, which has become a reality.

The addition of school districts 87, 78 and 81 (east of Des Plaines river) to Leyden, also districts 80 and 86 and the non-high school area of district 79.

A new high school district is recommended for districts 85 and 85 1/2.

Copies of the report have been forwarded to school officials, members of the state legislature and to the press of the county.

Old pictures for 75th anniversary

Paddock Publications has gathered many old pictures of business buildings of this area of 40 to 75 years ago, but needs additional ones, especially of Arlington Heights, Elk Grove, Schaumburg, Roselle, Itasca, Bensenville, Bartlett, and Wheeling. Readers having old pictures, regardless of their condition, are asked to phone Arlington Heights 1520 and they will be called for. They will be returned promptly.

Bake sale Saturday

A bake sale will be held Saturday at the Public Service store, corner of Vail and Campbell, Arlington Heights, at one o'clock. This sale is being sponsored by the Wheeling Township unit of Home Bureau and the proceeds will be used for the benefit of the 4-H Memorial Camp fund.

Comrades of the Arlington Heights VFW Post 981 are urged to help the Post and Fire Department with arrangements for the joint festival to be held in July. Special meetings will be held every Wednesday evening at 8 p. m., in the firemen's room at the village hall.

The Post is happy to report that three of its comrades who were on the sick list, Stu Pad-

dock, Tony Bodor and Levecek, are now on the road to recovery. A thank you also goes to the president of the high school board, E. A. Laurin, and superintendent of public schools, R. E. Clabaugh, for the courtesy extended the Post.

CHRISTIAN SCIENCE CHURCHES

The subject of the Lesson-Sermon in All Churches of Christ, Scientist, on Sunday, June 15, was:

"GOD THE PRESERVER OF MAN"

The Golden Text was:

"The Lord is my strength and my shield; my heart trusted in him, and I am helped." (Ps. 28: 7).

Among the citations which comprised the Lesson-Sermon was the following from the Bible:

"O Jerusalem, that bringest good tidings, lift up thy voice with strength; lift it up, be not afraid; say unto the cities of Judah, Behold your God! . . . He shall feed his flock like a shepherd; he shall gather the lambs with his arm, and carry them in his bosom, and shall gently lead those that are with young . . . Thou hast granted me life and favour, and thy visitation hath preserved my spirit." (Isa. 40: 9, 11; Job 10: 12).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy:

"The divine Mind that made man maintains His own image and likeness . . . All that really exists is the divine Mind and its idea, and in this Mind the entire being is found harmonious and eternal . . . God fashions all things, after His own likeness. Life is reflected in existence. Truth in truthfulness. God in goodness, which impart their own peace and permanence . . . Man made in his likeness, possesses and reflects God's dominion over all the earth. Man and woman as co-existent and eternal with God forever reflect, in glorified quality, the infinite Father-Mother God." (pp. 151, 516).

Cycling Popular

So popular has the bicycle become that at Smith College for women, in Northampton, Mass., there are more than 1,500 bicycles on the campus. Today throughout the United States there are more than 12,000,000 bikes, and 2,000,000 more are being added each year.

To dedicate new Glenview fire station this Sunday

Dedication of Glenview's new fire house will be observed this Sunday afternoon when Mayor Rennacker, the American Legion and local firemen aid in the festivities. Members of the department have been working feverishly the last few days finishing the landscaping about the building, so that all can be in readiness Sunday.

On December 2nd, 1911 H. M. McCullen, then president of the village board, called a meeting of the citizens who were interested in fire protection, and acting under the chairmanship of Frank Hoffman with A. C. Strayer as secretary, the group voted to organize a volunteer fire company.

The first meeting of the new company was called on December 12th, 1911; the constitution and by-laws were adopted January 24th 1912; A charter was obtained April 10, 1912.

In January 1928 the constitution and by-laws were revised. The following November the building on Pine street, was remodeled, and the hose tower was erected in September 1930.

The early equipment consisted, first of a 12 man hand pumper, which was drawn to the scene of a fire by hand. This was followed in 1912 by a Howe pumper mounted on a Ford truck. In August 1928 the Howe pumper was still in service but was considered inadequate, because of the increasing growth of the village. A subscription was raised and the first Seagrave 350 gallon pumper was purchased at a cost of \$6,500.00.

In 1930, after it was determined that the addition of another pumper would substantially reduce the fire insurance rates, the combination 500 gallon pumper and ladder truck was purchased.

This year the latest development is the new fire house, a beautiful structure facing Glenview road, and is the result of hard work and co-operation between the Fire department and village board members. It is built of Lannax stone and brick.

The opening ceremony will be performed by Mayor Mr. Carl C. Rennacker and the American Legion will dedicate and raise the flag in front of the building. Everyone present will receive a souvenir of the event.

The present personnel of the fire department is composed of 30 active members, all residents of the village. The department is on an entirely volunteer basis and no remuneration is received for services rendered.

The officers of the organization are as follows:
President - Werner Schmaderbeck.
Vice Pres. - Rudy Tagtmeier.
Secretary - William Hagen.
Treasurer - John Dig.
Chief - Carl Ladendorfer.
1st. Ass. Ch. - Ray Burmiester.
2nd. Ass. Ch. - Walter Henricks.

The Right Life For You

By C. W. Lussman of Sieburg Drug Co.

Nature has provided the human system with a marvelously intricate and beautifully coordinated set of organs, glands, blood stream, bone and muscle. When Nature's simple laws are heeded, these work together for health, strength and intelligence. Undue strain, insufficient diet and rest, too strenuous exercise, or too little exercise, may impair this structure. Then, lassitude, loss of energy, often loss of health, result.

Let the doctor determine what is needed to keep your good health intact. Should it fail before you consult him, let him advise what must be done to correct and to restore health and energy.

We decided that we could use some High Adventure. So we packed our bags and set off for the historical Land of Spice. We talked to People of All Ages. We saw the Primitive gent alleged to have discovered cinnamon. His remarks were highly aboriginal. We hurried on to Antiquity. It was Saturday night and the gamy ancient were basting themselves in perfume. That was the law. A vacationing crocodile revealed that "crocodile tears" were caused by a certain spice. "It does something to us," he said frankly. The Denizens of the Dark Ages said with enthusiasm "Spices make spoiled food taste REAL good." Slipping a cutlass between our teeth, we sailed through pirate-infested seas into the Age of Exploration. We darted into the Eighteenth Century to visit four thieves and to ogle the House of Parliament; We got a story and John McKee got sketches for CHRONICLE OF CONDIMENTS.

Plan women's world's fashion fair

Chicago's \$375,000,000 women's apparel and accessories industry today challenged New York's claim of being the Nation's style center.

Summarizing the attitude of the industry here, Oscar Meinhardt, executive director of Chicago Fashion Industries, asserted: "Chicago last year manufactured more than \$375,000,000 worth of women's apparel and accessories. That figure does not include shoes, jewelry, furs and similar items. More than 250,000 persons are gainfully employed here in manufacturing women's wear. This is one of the city's major industries."

Meinhardt said Chicago stylists and manufacturers will prove their point late this summer at the great National Women's Exposition.

The colossal "women's world's fair," to be held in the Coliseum, will be the city's first great exposition of its kind ever opened to the public.

Here, under one gigantic roof, will be assembled the latest style creations—gowns, frocks, furs, jewels, cloaks, millinery, footwear, lingerie, accessories, beauty aids and fashion specialties.

Many leading stylists, fashion designers and beauty experts will collaborate in unveiling to the public milady's new winter silhouette.

World-renowned couturieres, hat designers and makeup artists will conduct daily demonstrations showing how to attain the utmost in style, beauty and charm.

No Fireworks

As the 4th of July approaches this year, we are reminded to urge the full cooperation of the residents of this community in enforcement of the Illinois Fireworks Law. As defined in the statute the retail sale and use of fireworks are illegal.

The State of Illinois ranks third highest in the United States with bad fireworks records. As in years past, the Arlington Heights police have been directed to suppress shooting of fireworks and we feel sure that we can count on everyone in Arlington Heights and community to help make this a year with no fireworks accidents.

ALBERT W. GOEDKE, Mayor.

Chicago firm starts casket production with 60,000 goal

Now nearly halfway towards its production goal of 240 caskets daily, the Continental Industries, Inc., 1743 West 74th St., Chicago, has become the world's largest casket manufacturers.

Using an assembly line technique patterned after those in use in automobile plants, two shifts with a total of 450 employees will be busy the next year and a half fulfilling a contract for 60,000 caskets ordered by the Quartermaster General for the final interment of World War II overseas deceased.

A shortage of steel plus a seven month period engaged in installing \$300,000 worth of special machines and dies held back manufacturing activities until early spring, although the Government contract was awarded a year ago.

The first 10,000 caskets being produced will be used for those remains that will be finally interred in permanent military cemeteries overseas. The next 50,000 caskets made will be used for repatriation of overseas deceased.

"There is no commercial casket similar to the repatriation casket," says R. D. Page, president of the firm. "It is designed to be utilized for final burial in this country, and so is conservative in design and of standard size. But its unique seamless steel construction and high gloss of syn-

SPRING FEVER, eh?

Yes, it makes a nice-sounding alibi. But maybe there's a reason for "that feeling." If you are chronically lacking in energy these spring days, better have a talk with your doctor. He may find a condition that needs correction. And then, if he gives you a prescription, we'd like to compound it!

ARLINGTON HEIGHTS

Strawberry time Saturday night at Prospect Hts.

Prospect Heights' unique outdoor Strawberry Festival will make its fourth annual appearance Saturday evening, June 21, at Torreyson's Courts.

The festival will open at 7:00 o'clock and according to members of the Women's Guild will be a very interesting and fast moving program. The usual strawberries, ice cream and cake features of the festival will be very much in evidence and a much touted kitchen orchestra will highlight the entertainment portion of the program.

The festival, true to tradition, will be operated "rain or shine." Weather permitting, it will be held at Torreyson's Courts amid the beautiful shrubbery and gardens. In case of bad weather forcing the show indoors, the festival will be transferred to the schoolhouse.

This unusual and much-talked about social event of the year originated in 1944. Radio stars served as the attraction, though strawberries, ice cream and home made cakes, proved to be the festival's headline in memories. The enchantment of Torreyson's Courts, coupled with the setting sun and a lovely evening, gave the first festival its romantic touch. The use of the words "Old Fashioned," in its publicity added luster and color. Delicious strawberries, with oodles of them poured over ice cream, crowned the festival with applause. The festival has been held each year in June since then and is sponsored as a social event by the Community Church Women's Guild.

Choral concert pleases music lovers

The Prospect Heights Choral Society, held its third successful concert Thursday evening, June 12, at the Township High School auditorium in Arlington Heights. It was a night of harmony and choice music, with choral numbers, Negro spirituals, opera arias and sacred compositions highlighting the group's performance. The program opened with choral numbers by the chorus of 29 voices. Handel's Hallelujah, Amen, Howerton's arrangement of Von Bruch's In Sorrow Now I Cry to Thee, Brahms's The Trysting Place and Neidlinger's The Silent Sea were the numbers offered and received enthusiastically by the audience.

Helen Reis, in better voice than last year, sang the "Spirit Flower" and gave "When I Have Sung My Songs," as an encore. Next came a mixed quartet number "Strange Music," which was delightfully sung by Gloria Chyrchel, Dorothy Fairbanks, Roy Goetschel and Donald Gage. Gloria Chyrchel and Roy Goetschel followed the choral's "Les Preludes," with an excellent singing-acting rendition of Rombert's "Make Believe," and then sang "Auf Wiedersehn" as an encore.

Louise Older sang Carmen in a very pleasing manner and obliged with an encore "Were My Songs With Wings Provided." Carl Gingrich, a baritone soloist guest artist amused the audience with his mannerisms, singing Rossini's "The Barber of Seville," with "I Love Life," and the "Big Brown Bear," as encores.

Following the intermission the chorus, in costume, sang a number of folk songs which included a Scotch number as its standard feature. Carl Gingrich and Roy Goetschel sang Verdi's tenor and baritone duet, Solenne in Questore, the Rhythm sisters did a tap dance, and then the chorus followed in a finale which included: How are Things in Gloucester, Ezekiel Saw De Wheel, You Walk Alone, God of the Open Air and Deep Purple.

Looking at the concert with a critical eye and a critical ear it seemed the consensus of opinion was that the chorus had improved greatly, especially in its diction. The program was well arranged to entertain but the introduction of a tap dance number seemed out of place in such an excellent "packaged" evening.

The addition of guest artists evidently did not have the desired effect to please, even though their numbers were expertly done and highly appreciated by the audience. The effect actually secured was the loss of a community amateurishness which has made the choral's concerts a "must" with all local music lovers. Every member on the program proved a hit with the audience. Director Phyllis D. Snetsinger demonstrated her artistic cleverness and excellent training voices in the fine numbers offered by the chorus. Albert Peters and John G. Hane captured audience attention by the fine efforts to please, although Hane experienced quite a bit of trouble singing over his mustache. The printed program, too, rated tops because of clever program notes compiled and written by Gloria Chyrchel and Marguerite Dietrich.

Methodists' conference at Rockford June 25

The 106th annual session of the Rock River Conference of the Methodist church will con-vene at the Court Street church in Rockford Wednesday, June 25, with the Rev. J. Richard Sneed as the host pastor.

The resident Bishop of the Chicago area, J. Ralph Magee, will preside at all the business sessions of the conference, which includes 391 churches and re-presents over 155,000 Methodists in northern Illinois.

The Lay member, representing the First Methodist church of Palatine, Wallace A. Nieske, will attend, and the pastor, the Rev. William Harry Fetz, will be present at all the sessions from Wednesday through Sun-day. Mrs. Fetz will also attend.

In addition to the regular bus-iness and the many vital issues which the ministers and the lay members will discuss and vote upon, this is the year when both ministerial and lay members to the General and Jurisdictional conferences will be elected.

The conference will officially open Wednesday, June 25th, at 10:00 a.m. After the addresses of welcome, the Rev. Lester R. Minion will give the annual Memorial service address.

Each morning and part of each afternoon will be business sessions, followed by devotional periods featuring such well known preachers and speakers as Bishop J. Ralph Magee, Dr. Ralph W. Sockman, Dr. T. Z. Koo, Mrs. J. D. Bragg, Dr. Roy L. Smith and others.

Thursday, June 26th, will be Woman's Society of Christian Service day, beginning at 10:00 a.m. Saturday, June 28th, will be Youth Day, registration be-ginning at 10:00 a.m. At 11:00 o'clock the young people will be guests of the conference and witness the voting on the reception of men into the conference, and the retirement of others.

On Sunday, June 29th, the conference sermon will be de-livered by Bishop J. Ralph Magee. Services will also be held in the other Rockford churches with guest preachers.

The closing session, beginning at 3:00 p.m. Sunday, June 29th, will include the ordination of ministers, the consecration of deaconesses, the recognition of retiring preachers, and the read-ing of the appointments.

Professional entertainment 4th festival

Two Chicago booking agencies are vying with each other to see which can give Arlington Heights the most for their money at the July 4th celebration. The enter-tainment program for Saturday night, July 5, was outlined in last week's issue. This week the committee tells the program for Sunday night, July 6, which has been booked thru Sid Page.

Master of ceremony
Freddie Stritt is one of the finest comics and Master of Ceremonies in the country. Stritt has played major hotels, cafes, and theatres throughout the U. S. Canada and Mexico. He is also one of the few acts who played in the front lines with the U.S.O. for two and a half years. His type of comedy is well received by young and old, of all classes. Stritt's dynamic personality and excellent showmanship has him in the top bracket of comedians.

Acrobatic team
The five Miami's, comprise four boys and a girl who excel in the art of pyramid building and sensational adagio tricks. Their youth, appearance, and phenomenal execution of their diversified tricks keeps them in the top spot in their line of work.

Dog show for children
The Arwoods, a man, women, assisted by their canine friends who are tops in their line of bal-ancing. Their tricks are all un-usual and exciting, to young and old alike. They are a must on all big circus and fair dates, and have played them all. Here is an act, no one can afford to miss.

Chick Thomas, you have heard the trials and tribulations of the vet from World War II, with Chick you see and hear what happened to the boys of World War I. You get more laughs with Chick Thomas for 18 min-utes, than with a barrel of mon-keys.

Mary Kay, pianist of the show, is a past master for leading and playing shows. Her services are well in demand, if by herself or in front of a 20 piece band.

Plan 3,000 home unit for south side of Chicago

Significant progress in the na-tion's rental housing situation was made today as the Federal Housing Administration an-nounced approval of mortgage insurance financing totaling \$27,500,000 for the construction of 3,010 rental homes by the Amer-ican Community Builders, Inc., a Chicago firm that intends to build a completely new and modern satellite city 30 miles south of Chicago's Loop.

Construction on the 2400 acre site located on the Cook-Will county line between Chicago Heights and Matteson will begin next month and the first houses will be completed in early 1948, according to present plans. Sur-veying for location of home sites and roads will begin immedi-ately.

The rental section will include 2300 two and three bedroom units in multiple family "town and country" houses and twin houses. Two hundred will be one bedroom units.

Rents will range from \$65 to \$87.50 with a few units renting for \$90 a month, according to Nathan Manilow, treasurer of the ACB and president of the Chicago Metropolitan Home Builders Association.

Priority will be given to veter-ans in renting the dwellings. Designed to meet family needs, the architectural plans provide for extra size living rooms and bedrooms, adequate dining rooms, and modern kitchen and bath-rooms. Each dwelling will be provided with a full basement.

In the rental area, a "lot-yard" for each 15 to 20 homes is be-ing provided. There will be nine large playgrounds with equip-ment and space for competitive sports. All play yards will be surfaced and well drained.

In addition, each house will

Arlington softball league batting .702 against the weather

After three weeks of play in the Arlington Heights Soft Ball League, rain has caused five postponements. The diamond isn't been in any too good shape for any of the games so far, but a few days of warm sunshine should take care of it. The cool evenings have kept the crowds down a bit, but it is hoped that attendance the games will pick up as soon as warmer weather arrives. (At this time Rose Lo is leading the league with 3 wins, no losses and 1 game postponed. Jack's and City Cab are tied for second with 2 wins and no losses. Nick's has 3 games lost and El Rando is fourth with 2 wins and 2 lost and 1 game postponed. Mt. Prospect is fifth with 1 win and 3 lost, and Benny's Tavern and Haseman's are tied for last place with no wins and losses. Haseman's had 2 games postponed and Benny's Tavern had 1 postponed game.)

All the postponed games will be played the week of the 23rd, starting with Nick's and Rose Lo. Cousin Freddy Baehm has boys all keyed up and they could give the powerful Rose team quite a battle.

The schedule from June 19 to June 30:

- 19-Haseman's-Rose Lo.
- 22-City Cab-El Rando.
- 23-Postponed Games

- 25-Haseman's-City Cab.
- 26-Nick's-El Rando.
- 29-Haseman's-Benny's Tavern.
- 30-Nick's-City Cab.

Wheeling Cards lose at Highland Park, it beat Stucco

Wheeling Cardinals met the Highland Park Merchants at Wednesday night and lost them by the score of 3-0. The boys were surprised to see Bob Loebner on the mound for Highland Park, as he is one of Wisconsin's outstanding pitchers.

Sunday afternoon the Cards played White Stucco in Des Plaines, to win their second straight game at home. The score was 6-4, with much credit in go Bill Blue for his fine pitching along with fine team play.

The Cards will play at Libertyville on Sunday, the game starting at 7:30. Their next Sunday game in Wheeling will be July 13.

Five more players for high school all-stars

Five players have been named to the Chicago All-Stars for the high school baseball classic July 1 at Comiskey Park. Nine more boys will be honored — three each from the North, Central and South sections of the public school circuit — and the city squad will be complete for high school baseball's biggest show.

The prep classic, sponsored by the Herald-American as a part of the Hearst National Boys baseball series, will be played the second half of a double-header that day. Paired in the 4 p.m. opener are Ted Lyons' White Sox and the rampaging Detroit Tigers.

Women and school children will be admitted for only a 25c ticket. There are no changes in prices for the big twinbill, served box seats are \$1.80; grandstand, \$1.25 and bleachers 50 cents.

Dog show Sunday

A new high in entries for an outdoor dog show in the Midwest is announced by the Skokie Valley Kennel Club, whose 10th annual all breed show will be held Sunday, June 22, at White House Grounds, Irving Park boulevard and River road, Schiller Park.

Mrs. Janet Henneberry of Golf, club president, states that more than 1150 dogs representing 58 different breeds have been entered for judging. Obedience trials, of unusual interest to spectators, have attracted 87 entries.

Many All-American golfers to compete in special tourney

An opportunity will be given Tam O'Shanter members to team up with contestants in the All-American tournaments, including professionals, amateurs, and women, in an 18-hole medal play event to be held on Saturday, June 28, and Sunday, June 29, with medals and cash prizes going to the three teams with lowest scores. The All-American tournaments themselves will be held at Tam O'Shanter on July 3-6, 1947.

To compete in this innovation in golf tournaments, contestants in the professionals, All-American, amateurs' All-American, and Women's open All-American must declare their intention on their All-American entry blanks. Each contestant will be teamed up with a Tam member and their combined score, medal play, less member handicap will constitute the total score. All pairings will be made by the pairing committee. Most contestants entered to date have expressed a desire to play in the contestant-member event.

The field for this All-American Contestant-Member Tournament is expected to comprise approximately 300 players, consisting of 150 contestants in the regular All-American Golf Tournament and 150 members of Tam O'Shanter Country Club. Rules of play will be the regular rules of golf. No entry fee will be charged.

Urge more lakes in Illinois for fishing and recreation

Now is the time to put in a plug for more fishing waters in Ill. The legislature is now considering a proposal to appropriate \$3,000,000 for the construction of fishing and recreation lakes in every county in Illinois. Of course, the \$3,000,000 will not build a lake in every county but it certainly will be a good start.

There are thousands of demands on the legislature for money to do a thousand different things in Illinois. However, we do not think there is any other request more important than the one that money be set aside for building fishing and recreational lakes.

Those who agree, can put in a plug for the construction of these lakes now by writing to Senators and Representatives asking them to do what they can to see that this appropriation goes through. They might also send a letter to Governor Green so that he will know there is a demand on the part of Ill. citizens for additional lakes.

Illinois is sadly deficient in good waters that are open for use by the general public. Every year thousands of our citizens go to

Raise purses for midget autos at Hansen park

With the northwest side proving that it likes midget auto races staged right in its own area, each week the Friday night events at Hansen Stadium, Fullerton and Central avenues, are being augmented by added attractions. For this Friday night there will be a special feature for a fat purse, along with the usual eight major events. The track, badly flooded last week but made ready through burning gasoline on it to absorb the puddles proved to be sportier than ever and while a number of cars went into spins on the turns, there were no casualties.

The hazards and the enthusiasm of the crowds are enticing numerous drivers from various parts of the country to the Hansen events. Last week there were a lot of new names on the entries and some more will be among the competitors this week, along with the regular favorites such as Ben Zukor, Corky Singer, Tom Coney, Ben Wiswell, the Johnson brothers and a score of others.

The box offices, which have been increased in number, will be open at Hansen from Friday noon, for the accommodation of fans. For the night of July 4th there will be an added feature race of fifty laps for purses large enough to assure a lot of entrants, including not only the vets of the stadium but many more when it is expected that the track record of 20:31 will be smashed.

Three Des Plaines boys to participate in lake-raft crossing

The Radlein family of Des Plaines, already boasting six world war II veterans in the group, are about to make history again when three of the brothers participate in the first crossing of Lake Michigan in a rubber raft on rubber life rafts.

Jim Radlein, 780 S. Wolf st., reports that the idea all started as a dare or statement that it could not be done. Al Radlein, representative of the Goodyear Rubber Co., who had crossed Lake Erie in a rubber raft before the war, said he did not think Lake Michigan would present any greater problems in crossing than had Erie. This is how it started.

The plan is to cross on July 19 from Sheboygan to Ludington with outboard motors attached to the rafts. The party will consist of 3 seven-man rafts; one five-man raft and one 10 man raft. Major Mulbergen and General Peck, deputy commander of the air corps, are among the big names included in the personnel of the party.

Jim and Lawrence Radlein will be passengers on a seven-man raft and Al will operate a 10-man raft or assault boat. The five man raft is called a Rickenbacker and the seven man raft is a B29 raft.

The army has taken over the affair as an experimental project for some new equipment they are now testing.

Redwings recover to grab wild 10-7 victory

It required four innings before the Redwings could realize that they were actually playing a ball game, after four consecutive Sundays of inactivity due to weather conditions, and after dropping behind 4-0, they recovered and collected a 10-7 victory over the Neva Billiards Midwest League club. It was their third win in a row at Recreation Park.

Lefty Ganshirt never seemed to get his pitching arm warmed up and his inability to hold the visitors' bats in check, coupled with loose defensive playing by the Redwings allowed Nevas to score a run in the first and 3 in the third, for a 4-0 lead.

The local club seemed to revive after Schaefer came in to pitch and scored 4 runs in the fourth frame. A base on balls to Groh and hits by Schiewe, Wahl, Stroker, and climaxed by a triple to right field by Schaefer tied the score.

This did not discourage the visitors in the least and they regained the lead 6-4 by taking advantage of an error by Wahl, a fielders choice which put a runner on base, and a timely single drove home both runners.

Just to show the Chicago boys that they were not the only ones who could put on a successful recovery act, the Redwings continued their scoring spree of the fourth inning by adding 5 more runs in the fifth. Again Schaefer came through as a hitter, getting a two base hit with the bags loaded.

After the fifth the Nevas were held in check by Schaefer's hurling. They did score once in the seventh but the Redwings also tallied once in the same frame. In the ninth the Nevas managed to fill the bases with one out but a fast double play from Wahl to Kirchoff to Simpson ended the wild exhibition.

Next Sunday afternoon North Chicago will play here. This club is bolstered by several University of Illinois' baseball stars and is considered one of the best teams along the Lake Michigan Shore line. According to reports this club is better than any team which has appeared here so far this year and so Schaefer will be the starting pitcher with Schiewe doing the catching.

DuPage county racing pigeon

Saturday turned out to be a red letter day in racing pigeon accomplishments. With an early liberation (5:30 a.m.) and a favorable wind at Columbus, Neb., the first bird entered by E. Eliot of Glen Ellyn, flew this five hundred mile race in nine hours and forty-eight minutes. The lofts of J. Mika and H. Dimmitt weren't far behind. In all, over thirty birds homed the same day they were liberated 500 miles away. This is indeed a worthy accomplishment and shows perfect training and condition in this large liberation.

Something new and entirely different has been inaugurated in the line of education for the Barrington high school seniors — a 13-day trip through the eastern section of the country. During the course of their excursion they will visit Mansfield, Ohio; Gettysburg, Pa.; Washington, D. C.; Philadelphia, Pa.; New York, N. Y.; Binghamton, N. Y.; Niagara Falls, N. Fingers amputated after home-made bomb explodes

Jack Bruski, 14 year old son of Mrs. A. G. Bruski of First and Prairie, Des Plaines, was critically injured last week while firing a home-made bomb at Earle Field. With him at the time, and the lad who is reported to have made the explosive, was Donald Sharp of 1424 Thacker, who escaped injury, although he is said to have shot off quite a few bombs of a similar nature. The bombs were the product of Donald's chemistry set.

According to witnesses, the boys made the contraption in the form of a Roman candle, holding the shell casing in their hands and then lighting a fuse. Several times the fireworks worked as expected, but this time, something backfired and the casing exploded in Jack's hand. He was rushed to the hospital for treatment, where it was found that amputation of the thumb and middle finger of the right hand would be necessary, and possibly similar removals of fingers on the left hand. Jack was also burned about the arms and neck, but fortunately his face escaped unscathed.

Three hundred ninety-five students will receive degrees at the exercises from Dr. Georges D. Stoddard, president of the University. The exercises will be conducted in the auditorium of the University's undergraduate branch at Navy Pier at 2 p.m.

Hartleb will receive a bachelor of science degree in pharmacy, while Law will receive a doctor of dental surgery degree.

Marian Babbitt and Robert Malcolmson wed

Miss Marian Knight Babbitt, daughter of Mr. and Mrs. Ben K. Babbitt of Sherwood, Arlington Heights, and Mr. Robert Dennis

Malcolmson, son of Mr. and Mrs. W. J. Malcolmson of Riverside, were married at 8:30 p.m. June 14 in a candlelight ceremony at the First Congregational Church in Evanston. The bridegroom's grandfather, Rev. George P. Baitty of Kansas City, read the service.

The bride wore a faille gown,

with full skirt and train, belonging to her cousin, Mrs. Knox Booth of Northbrook. Her full-length veil was borrowed from Mrs. J. E. Wood of Sherwood. White gardenias, with an orchid center, set against a fan shaped net background, made up her bridal bouquet.

Miss Patricia Dressler, the bride's Smith College room mate, was maid of honor and Mrs. H. Russell Spielman, matron of honor. Attending as bridesmaids were the bridegroom's sister, Mrs. George A. Wilson of Philadelphia, and Miss Janet Brown. They all wore yellow moire gowns, with matching crown headpieces, and carried cascade bouquets of orchid irises, tied with salmon bows.

Best man for the bridegroom was William C. Butler, with the bridegroom's cousin, Robert J. Malcolmson, Jr., of Scarsdale, John H. Gillan and Mr. Spielman acting as ushers.

Mrs. Babbitt chose to wear a royal blue crepe dinner gown for her daughter's wedding, while the bridegroom's mother wore a rose crepe dinner gown. Both had white gardenia corsages.

Immediately following the ceremony a reception was held at the Georgian hotel in Evanston.

Mr. and Mrs. Malcolmson are now on a wedding trip to Bermuda and upon their return they will be at home on South Shore Drive.

Jean Schroeder says 'I do' to Herman Becker

Amidst a garden setting of white picket fence and arch, decorated with yellow and lavender irises, Miss Jean Schroeder, daughter of Mr. and Mrs. Arthur Schroeder of Kirchhoff road, became the bride of Herman Becker Jr., son of Mr. and Mrs. Herman Becker Sr. of Arlington Heights. The ceremony took place last Saturday before the altar of the Palatine Immanuel Lutheran church, with the vows of marriage being repeated after Rev. W. C. Koester.

During the ceremony the bride's uncle, Carl Rudow of Detroit, Michigan, sang "Because" and "The Lord's Prayer," accompanied by the organ by Arnold Bathje of Arlington Heights.

A bridal gown of white net, applied with white satin, was worn by the bride, who was given in marriage by her father. The dress was fashioned with sweetheart neckline, long fitted sleeves, and a full skirt ending in a long train. Her full length veil was edged in lace and fastened by a crown of orange blossom. She carried a bridal bouquet of white stephanotis and roses, with an orchid center. Miss Schroeder also wore a rhinestone pendant necklace, which was a wedding gift from the bridegroom. Her wedding gift to the groom was a ring.

Pink dotted swiss dresses were worn by the maid of honor and bridesmaids. The dresses were styled with fitted bodice, having a high neckline and low ruffle flounce, which formed cap sleeves; and full skirt having a ruffled bustle back. Maid of honor was Anita Schroeder, cousin of the bride, and she carried a bouquet of yellow daisies, and wore a dotted swiss braided crown of pink and purple.

Bridesmaids were Eileen Schroeder, Dorothy Hennig, Doris Pape, and Mildred Stromberg, with Jacqueline Rudow of Detroit, acting as junior bridesmaid. They wore pink braided crowns and carried arm bouquets of yellow daisies and lavender statice.

Judith Jean Kruse was flower girl and she was attired in a white gown identical to the brides and carried a basket of pink and white snapdragons. Dressed in tails, Danny Schroeder, who acted as ring bearer, carried the rings into the church on a satin pillow.

The groom's brother, Wilbert Becker, served as best man, with Daune Schroeder, Eugene Rudow, Ed Stromberg and Ted Hauer, acting as ushers. They all wore summer tuxedos and had boutonnières of white carnations. The bridegroom had a white rose boutonniere.

A jade green chiffon dinner gown was worn by the bride's mother and Mrs. Becker wore a rose crepe dinner dress. Mrs. Schroeder had a corsage of yellow roses and Mrs. Becker had a white gardenia corsage.

The Arlington Heights field house was the scene of the wedding reception, at which 350 guests were entertained. Dancing was enjoyed to the music of Wally Hahnfeldt's orchestra, with a buffet supper being served later in the evening.

After a two week honeymoon to the Smoky Mountains, Mr. and Mrs. Becker will be at home at 398 N. Kennilworth avenue, Elmhurst.

At Knox

Mr. David Heller of Arlington Heights graduated from Knox college, Galesburg, Illinois, June 16.

Knox's 102nd graduating class includes 115 students, 61 of them women. All but two of the 54 men who will receive their diplomas are World War II veterans and one out of every four is married.

While at Knox Mr. Heller majored in physics, acting as an electronics instructor at a jointly sponsored college and International Harvester after hour trade school. He was a member of the Siwash football team and is a member of Phi Sigma Kappa, social fraternity. He is the son of Mrs. E. H. Heller of Arlington Heights.

cars collide at West Northfield

Saturday night a 7-passenger Cole 8 touring car ran into a Studebaker on Milwaukee avenue about two blocks south of Allison bridge. After hitting the car they skidded up the opposite bank and rolled completely over. There were two women and two men in the Cole which was believed to have been a 1916, but no one was killed. One of the men took the license numbers off and disappeared through the woods. The Studebaker wasn't very badly damaged and was towed in Sunday.

It was evidently a case of alcohol and gasoline not mixed, also a good reason why saloons and roadhouses ought to be closed Sundays. Bandits stole everything that is loose on the damaged car cause there was no one to stop them.

celebration at Palatine

The Palatine Commercial Association and Chas. E. Egan, a prominent horseman, are combining to give Palatine the largest Independence celebration ever held in its part of the state. Chas. Egan will conduct a full card races and ball game at the grounds in the afternoon. The Commercial Association has appropriated large sums toward the entertainment of the public downtown the morning and evening, including special high class attractions. The race program includes a free-for-all pace, 8 trot, 2:30 trot and 2:15 mile, exhibitions of promising yearlings and two-year-olds and will end with motorcycle and automobile races. The crack Palatine Stars will play the Elgin Fox Athletic Club—the championship team of Kane county.

Make large profit in potatoes

Fred Rusteberg of Brownsville, Texas, visited his brother, William Rusteberg, in Bensenville last week on his return from a business trip to Wisconsin, where he contracted for 50 carloads of this year's crop of potatoes at \$1 to \$1.85 a bushel to be used for seed on his Texas plantation. The higher figure includes payment of freight (37 cents a bushel) to Brownsville, where they plant their potatoes in December and January and harvest them in May and June.

He has just sold his season's crop of potatoes at \$2.75 f.o.b. at Brownsville and will be shipped to St. Louis, Kansas City and Denver and cleaned up a handsome profit of \$13,000 from 175 acres. The weather is so warm there that it is cheaper to buy northern seed than to keep them over.

Hold festival at Deer Grove

At the school festival held in Deer Grove nearly every school in the district was represented and with these 500 pupils came their parents and the crowd of over 2,000. The occasion was made doubly important because it also served as the dedication of Forest Preserve district No. 1—the first in Cook county and Illinois.

Following a short concert by the Barrington school band around 10 o'clock that organization headed the procession of school children who encircled the large ball field as the cameras clicked. County supt. Tobin presented the eighth grade graduates from the rural district with their diplomas. The Arlington Hts. Glee club gave a selection at the close of Mr. Tobin's address.

The field meet was held after the lunch hour and then 150 children in costume conducted their primary games. The dedication speeches were held at four o'clock. Address was made by Dr. Adolph Weiner, Peter Reinberg, president of the county board; Charles H. Wacker of the Chicago Plan Commission; Dwight H. Perkins, father of the forest preserve; coroner Hoffman; county clerk Sweetzer; county treasurer Henry Stuckart; commissioner Busse and sheriff John Traeger.

As a special feature for the afternoon a party of young lady dancers from the university of Chicago gave their dances before over a thousand spectators. In the evening the Palatine Commercial club conducted a dance which was largely attended and netted them nearly \$100.

SEEKING COMFORT

So many weighty problems have been besetting the village board at Palatine lately that the chairs of the aldermen, mayor, clerk and attorney have all suddenly collapsed, and are being tossed into the discard at every

place, but they do look rather nice with the new beige shirt and sweater, don't they?" I could see he was pleased as punch as he fingered the other gifts. Even his new daughter-to-be had knitted him a beautiful pair of wool Argyle socks.

Few fathers, unless they have unlimited means, will go into a men's clothing store, and stock up their wardrobe. They more often, but only the absolute necessities. But, I bet, they often wish they could go on one of those "shopping sprees" their wives indulge in!

So, I think a good idea to have at last this one day out of the year when wives and children can celebrate Father's Day. Mothers ought to be willing to share the limelight with Fathers—we women get too much attention, anyhow. (Now, Jane, take it easy.)

To be merely a mother, or father, for that matter, doesn't entitle us to wear a halo for the rest of our lives. We've got to earn our awards in the school of parenthood. These "awards"—their love and devotion—are presented to us by our children, and in them our real and true happiness lies.

With Love, Mary

Tales of the STREET

BY I. C. HART

FROM DES MOINES TO BUFFALO

Tony Dolatowski dropped into town from Des Moines, Iowa the other day and reported the same rainy flooded conditions there that have been prevailing around here. Crops are not planted, land not worked and just too much water for any good cause.

Then from Buffalo, N. Y. comes Herman Zinn, Jr. for a visit with his dad and he reports the same conditions eastward, all of which add up to a not too bright crop outlook and a late season all along the line.

Locally more heavy rains in the truck growing area have still further delayed the farmers and gardeners, and the results of a few warm dry days were fast being nullified by the extra moisture. The return of cold weather didn't help things any. Crops that were up show a decided lack of heat and sunshine and nothing seems to grow as it should, even the hay crop which is supposed to thrive on cool wet weather is patchy and uneven according to many farmers.

Local farmers take a cheerful view of the situation. "Just look how much better off we are than the people in the flood area down along those flooded rivers," they say. Well, maybe some day the sun will shine and things will grow, but that old adage of knee high corn by the fourth of July looks as if it would be only a memory of by-gone years this season.

GROWING TOWN

The rapidity of Palatine's growth in recent years can be seen in the increased number of water consumers that go on the books as new homes are completed and new meters installed.

Village clerk E. P. Steinbrink gave some interesting statistics on the subject the other day when he produced the following table showing the number of houses using water during the last few years. Jan. 1, 1941 there were 611 consumers; Jan. 1, 1942, 625; Jan. 1, 1943, 641; Jan. 1, 1944, 634; Jan. 1, 1945, 637; Jan. 1, 1946, 714; Jan. 1, 1947, 772 and April 1, 1947, 784.

With the permits now issued for new homes the number will be increased by another 151 as soon as the homes are completed. The new construction includes 82 in Palatine Park, 51 in the Plum Grove road development and the other 18 in miscellaneous locations.

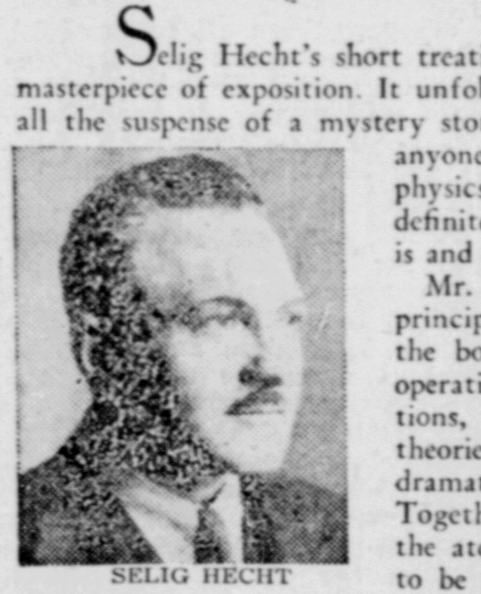

The rapid increase in water consumers gives a ready indication as to the fast growth of the village and some idea of the problems that confront the schools and the village in the adequate handling of a fast growing community.

READING & WRITING

BY Robin McKoun

Selig Hecht's short treatise, "Explaining the Atom," is a real masterpiece of exposition. It unfolds the secrets of atomic energy with all the suspense of a mystery story. And it is so clearly written that anyone with a smattering of high school physics and chemistry will leave it with a definite knowledge of what atomic energy is and how it was discovered.

Mr. Hecht shows that the discovery of the principles of atomic energy and finally of the bomb have arisen from the combined operation of scientific minds in many nations, starting, actually, with the Greek theories of matter. Much of the book is the dramatic narrative of each slow discovery. Together they make recent experiments to be a logical step in human progress, to be faced, according to Mr. Hecht, with respect but not with panic.

SELIG HECHT

The scientists on the Manhattan Project were generally known as the longhairs, says Mr. Hecht. One consultant for the atomic bomb project began to make regular visits to the barber and to take them very seriously. He explained that as a professor his hair made little difference to himself or his colleagues, but when he had to deal with Army men, he insisted that at least the physical excuse for being called a longhair should be absent.

This year the Book-of-the-Month Club has selected a special book as a "mid-summer" choice for vacation reading. It is "The Moneyman," a historical novel by Thomas B. Costain, and it will be distributed midway between the July and August books-of-the-month.

meeting. The boys evidently felt that with all those problems to wrestle with that they at least were entitled to as much physical comfort as possible while wrestling with them and at the last meeting they passed a motion for the purchase of nine chairs for the official family.

Alderman Rankin, a new member of the board, wondered if the financial condition of the treasury would permit the purchase, but the boys seemed to feel that if they had to go broke they might as well do it as comfortably as possible and the chairs will be purchased so the lads can relax while discussing the perplexing problems that are due to confront them for many, many days to come.

EVEN JUDGES WORRY

"If the farmers don't raise it, we don't eat," was the terse comment of a judge in the elevator at the county building the other day.

Two judges were discussing the weather and the crop outlook and the continued delaying tactics of the weather evidently had one of the gentlemen worried. He realized the basic economic fact that everything in the food line springs from the farm and he was beginning to worry about where the potatoes, beans and bread were coming from next winter if the farmers were unable to raise a crop because of the unfavorable season.

GARDEN NOTES

George Wilson was crowing about the size of his bean plants the other day and said boastfully, "I'll have beans next week."

Now we always knew that George was a good gardener, but we figure he was just putting on an act with that bean story, and that he was probably just about six weeks ahead of himself with that mess of beans. The other evening we were looking over a friend's garden down in Norwood Park and noticed a patch of ground heavily mulched with straw. "What have you got mulched there, strawberries?" we asked.

"No, that's my potato patch," replied our friend. He had a heavy mulch of straw over the ground through which a few potato plants were coming up. That mulch is all he does to that patch, he just lets the crop come up and take care of itself. No hoeing, no cultivating, that mulch is all that happens to those potatoes from the time they're planted until they're dug.

"Does it work?" we asked. And he told us about the fine potato crop that he raised under the same system. He says so he's doing it again. He says that the heavy mulch keeps the ground moist and loose and no cultivation is needed.

Well, live and learn. We've heard of that stunt before and have seen it tried many times on many different sorts of vegetable crop, but that bird is the first one who ever claimed any

great success for the system. This is another bad year for the gardeners because of the rabbits. And it's a bad year for the application of that famous rabbit repellent because of the rains. One application of the repellent is supposed to be good for two weeks, but with these continual rains it isn't good for one day much of the time.

This year's supply of the repellent is surely strong. We applied some around our bean patch the other evening and we don't blame a rabbit for not coming close. The odor of the stuff almost repelled us as well as the rabbits. But under favorable conditions it's a great dope and really does the business.

SNOW ON JUNE 14

A brisk snowfall the morning of Saturday, June 14 came close to setting a record in this part of the country. Probably not many people saw the storm, but we have it on the good authority of Ernst Hagenow who farms out in Palatine township at Rand rd. and Route 53.

Ernst was up before four o'clock that morning and says there was a brisk snow flurry from quarter of four to four o'clock. Ernst says, "I got something to tell you that you won't believe."

"Did we have a snow storm this morning," we asked. "Did you see it?" was Ernst's surprised reply.

No, we didn't see it, not being up that early, but from the way things felt when we did poke our head out-of-doors we would not be surprised at anything so Ernst's record-breaking blizzard wasn't any great surprise although probably a lot of people would think such a thing was next to impossible.

All day Saturday we kept running across fellows who were worried about a frost killing off their tomato plants and hoping it would stay cloudy until it started to warm up, so then it's that cold most anything can happen to June 14 blizzards out in the country.

THE MAILMAN'S CORNER

by Leland Ellis Truxell

One of the things that have always struck me in my daily stint at carrying mail, is how casually people discuss their daily affairs, and with what little warmth of feelings they seem to listen to what others have to say. Ah, they pretend to be sympathetic! But somehow, if you listen closely enough, watch their faces carefully enough, you can detect the trace of boredom in their answers, and an expression akin to impatience in their eyes. Actually, many people don't care about the other fellow's troubles. They are too anxious to tell about their own!

Even their greetings often lack the warmth that they should have. People you have met every morning going to work will sometimes avert their eyes or turn their head rather than wish you a cheerful good morning. They are so preoccupied with their own affairs, their own little puzzles or troubles, that they do not wish to indulge in the common civilities or neighborliness.

Some people, of course, are exceptional. They are so naturally warm, and friendly, that you never pass the time of day with them without feeling a lift in spirit. Some people live with thoughts so big, so unselfish and absorbing that they are lost in contemplation of them. Unfortunately for most of us however, our thought and day dreams revolve about the smug little world that includes only our own little troubles, hopes, dispairs of joys.

The next time you meet a friend absorbed in thought, approach him and say "a penny for your thought, George," and note the reaction.

Often he will look startled, grin sheepishly, or make some stock reply such as "Oh, I was thinking of nothing." He will avoid answering truthfully if he can. Why? Because his thoughts are of such a personal nature that he does not wish to put himself on the spot by uttering

kept Safe where once the water babies slept.

The kindergartners were so happy with their busy work, making umbrellas under direction; one child simply bubbled over. "Our teacher, she can make anything," Louis, the wrestler, cannot bear not to be the spokesman, no matter what the occasion. "No she cannot," he said in a loud tone of voice; then casting a look around, he knew he had to make good. "She can't make God, I betcha."

JUST AROUND THE CORNER

Jane: Father's Day, it's Father's Day here at farm, as elsewhere, but no wonder ever know it to look old. For dear, he was up, as usual, at 6 o'clock. He said later he had and went immediately out to the far end of the farm to over the corn fields. On his back, he brought the cows to barn and did the milking, as he does on other days. Right now, I can see him going a wheelbarrow filled with gravel for the base of the stone terrace. He's building it. He says he likes all these res," but sometimes, like y, I wonder if he wouldn't y sitting in a chair on that ice, for t change! He's forever working at some- or other every minute from his office. He tells his work at the farm is tiring." But, I often wonder, at times I feel guilty, for all my talking about the amount of work there is aising a family, I know I ot accomplish anywhere near such in a day as that hus- of mine. Father's Day, I am glad that at least on one day of the year we must recognize the place Father's occupy in the world. Most fathers are, on the whole, an unselfish lot, don't you agree?

All of us tried in our small ways this year to show Rob we really do think of him as a wonderful father, and for the first time in several years, all four of his sons were with him to tell him so.

The younger boys shopped with their limited amount of funds, and brought him gifts of clothing. They had planned to purchase a breast-drill, for they had heard him express a wish for this tool last Christmas, but I thought none of us would be capable of judging the worth of such a mechanical gift. Bob and Jack insisted on Rob wearing as many of their gifts as possible at his Father's Day dinner, and Edward expressed the "effect" of this new raiment very well, when he remarked "Dad, when I look much younger—sort of like a movie star!" And he did, too, honestly.

He told me on the side that "of course, I can't wear these yellow socks and tie to the of-

Sponsored jointly by the park boards of both communities, Bandmaster E. R. Sarig has announced that former Maine band members and other interested citizens are welcome to join the Summer band for the season.

Concerts in Des Plaines will be held at Rand Park on four successive Tuesday evenings: July 15, 22, 29 and August 5. All concerts will start at 8 p. m. and close at 9:30 p. m.

Barrington tradesmen to build house for Purple Heart veteran

Permanently disabled from the loss of one leg and other wounds and in Hines hospital with a stomach disorder, Gus Altenburg, Barrington Purple Heart veteran, has been faced with the problem of finding a place for him and his family to live. Having been hospitalized just recently, he has received word that his home has been sold and that he must move.

Discovering that Altenburg owns a section of unimproved property on which some day he had hoped to build, American Legion members decided that "there was no time like the present to start", so they solicited the aid of all available tradesmen in the community.

Fred Biek, cement contractor of Barrington, has begun with the excavation of the basement and claims that the foundation will be completed Saturday, barring rain or bad weather. Twenty local carpenters have volunteered their services, and will commence as soon as the foundation has been laid.

Charles Altenburg is to take care of the wiring, with Walter Koehner handling the plumbing.

Summer session to open Tuesday at Northwestern

The annual summer session at Northwestern University, an integral part of the academic year, will open June 24 with a complete curriculum in all schools of the Evanston campus, plus many extracurricular, cultural activities appealing to special interests.

Registration for classes will take place June 23. Eldridge T. McSwain, director of the summer session, said that early inquiries about registration indicate that the 1947 enrollment for the summer months will be at least as great as last year's, which totalled more than 7,800 in all schools of the university.

Plan second vet housing unit

The second Park Ridge veterans housing project is being organized.

Plans provide for a 16-apartment project, with each of four buildings containing four apartments.

Financing of the project will be on a cooperative purchase basis, with each veteran paying about \$1,700 down, and approximately \$55 per month. Hohm estimated these monthly payments, which would include heat, taxes, interest and amortization, would continue 32 years.

Motor trouble parks trailer, but can't remember where

When leaving for a rest in northern Wisconsin, James T. O'Hara had automobile trouble just outside of Barrington. Not wanting to lug his trailer along while he sought a garage, he parked it in some yard and made arrangements with the farmer to pick it up as soon as he returned. He had his car repaired in Des Plaines and returned to get his trailer. When he arrived in Barrington, he discovered that he didn't remember just where he parked it.

Questions on G. I. bill

Question: Is there any time limit as to when I can apply for my Readjustment Allowance?

Answer: Yes. You must apply for your Readjustment Allowance within two years after the end of the war or after your discharge, whichever is later. You may draw this up to a maximum of 52 weeks.

Question: Can I appeal for review of discharge?

Answer: Yes. Within 15 years after discharge.

Question: Can I draw Readjustment Allowance this summer, as I expect to leave school in June and return to school in September? It's over two years since I was discharged from service.

Answer: The GI Bill provides that a veteran may file for Readjustment Allowances within two

years after the end of the war or after discharge, whichever is later. The bill also requires you to be available for work during all the time for which you claim allowances.

Question: Last September I mailed my application for my terminal leave payment to the navy. I have not received an answer to date. Should I send a request for information or just wait longer?

Answer: Navy enlisted men who do not receive payment within 60 days after filing application and ex-naval officers who do not receive payment within 30 days after receipt of Notice of Leave Credits from Bureau of Naval Personnel, should contact officer in charge, terminal leave disbursing officer, Naval Training Center, Great Lakes, Ill.

YOUR DENTAL I Q

Question: Is it natural for all first teeth to be replaced by new ones, including the molars.

Answer: Normally, all of the 20 first or deciduous teeth are replaced by permanent teeth, in addition to which the individual receives 12 molars, making 32 teeth in the permanent set.

Question: Do people ever get three sets of teeth? Why?

Answer: People do not receive a third set of teeth. Occasionally, people do have, or erupt what is known as supernumerary teeth. This, however, is an unusual and abnormal condition.

Question: Why do the molar teeth sometimes come much too early — the second molars coming before the fourteenth year of life and the last molars (wisdom teeth) coming shortly after the sixteenth birthday? Has this anything to do with diet?

Answer: Usually the third molars or wisdom teeth erupt between the 17th and 21st year. Occasionally, for no known reason, these teeth may erupt slightly prior to the 17th year and sometimes after the 21st year. Occasionally the third molars are impacted and do not erupt at all. We doubt that diet has much to do with this condition.

Attends farm course

J. W. Warnimont of the White Lane Farms hatchery recently returned from St. Louis, Mo., where he attended an intensive course in sanitation for poultry and livestock. The course was given by specialists of the Ralston Purina company's livestock and poultry feed division, and Warnimont was conducted through Ralston Purina's Research farm at Gray Summit, Mo.

"The loss to agricultural production through poultry and livestock mortality alone has been estimated by the government at a half-billion dollars," Warnimont was told. With six million farms in the nation, that is an average of \$83 per farm per year, not to mention the immeasurable additional losses of production resulting from diseases and parasites which are not fatal to the stock. Modern chemical discoveries such as DDT sprays for parasites and germs and 2-4-D for weeds are helping to overcome these losses and Warnimont studied the proper use of these new products.

Unclean and decayed teeth create an unfavorable impression and indicate that the child is not receiving dental care and training in oral hygiene. Decayed teeth detract greatly from the appearance and may affect the health. Also serious dental decay and abscesses can retard the child's progress in school, with consequent far-reaching influence on behavior and social relationships.

University to hold field day for dairymen

A herd classification demonstration and field day for Illinois dairymen will be held at University of Illinois June 20. The University's entire herd of Holstein females of milking age, 56 individuals, and the two herd sires will be classified.

F. W. Atkeson, head of the department of dairy husbandry at Kansas State college of Agriculture and a recognized authority on dairy cattle, he judged at the Illinois state fair last year. The East Central Illinois Holstein Breeder's Association will act as host for visiting breeders, according to George Maxwell of Champaign, president of the association.

The field day will begin at 10 a.m. daylight saving time in the stock pavilion on the University's Urbana campus, with Professor Atkeson's demonstration.

The afternoon program will open at 1:30 p.m. daylight saving time in the pavilion with a discussion of economic trends that will affect the price of milk. R. J. Mutti, marketing specialist in the University's agricultural economics department, will present the information.

Experimental work of the dairy department is pastures, haymaking, nutrition and breeding will be discussed, and a tour of the University dairy farm will complete the field day.

Special emphasis on the tour will be given to pasture and hay-making projects under way at the University. Mechanical drying of hay in the mow and artificial drying of baled hay will be demonstrated. Visitors will have an opportunity to inspect the five breeds of dairy cattle owned by the University.

All dairymen and breeders are invited to attend the field day.

Corn and cob meal

Corn-and-cob meal gave equal growth at lower cost than ground shelled corn when fed to growing chickens at the Ohio experiment station. When these feeds were fed to layers, ground shelled corn gave slightly greater production than corn-and-cob meal, but birds receiving the latter ration had noticeably better plumage and there was little or no feather picking among them.

Cattle Case Is Settled After Long Trip Thru Courts

A suit involving the sale of a
herd of cattle alleged to have
been misrepresented was settled
out of court Tuesday morning,
after having been taken to Du-
Page county circuit court once,
then to an appellate court and
back to circuit court again.

Reduce price \$1350

An agreement was reached by
which the owner of the cattle,
George E. Fidler, Chicago, was
paid \$2,250 instead of the original
\$3,600 demanded from the pur-
chaser, John W. Kennedy, Ros-
sell.

Fidler, an attorney, and his
wife, Ethel, owned a herd of
Holstein cattle near Monmouth,
Ill., and sold them to John W.
Kennedy, a farmer residing near
Roselle, the latter said, in the
original suit. He charged that
the herd was sold him as sound
in the transaction made in No-
vember of 1943.

The herd, he said, calved in the
following December and January,
but it was alleged, the animals
were diseased, being effected
with mastitis, blind quarters and
hard quarters. Kennedy stated
that he lost money on the cattle
that were warranted to be in
good condition, and demanded
that Fidler take the cattle back.

Fidler refused and took judg-
ment in circuit court for the sum
of \$3,600 the agreed price set in
the sale.

The Kennedy farm was adver-
tised for sale to satisfy the judg-
ment, entered by Walker James
Milne, Wheaton lawyer. Kennedy
hired as his lawyer to set aside
the judgment, Perry and Elliott,
law firm in Wheaton.

The case was then taken to the
appellate court at Ottawa and
the court ordered that judgment
be opened up and the sale of the
farm cancelled and allowed Ken-
nedy to put in a defense to the
mortgage and note. The case was
brought back to this court and
set for hearing. The jury of 12
was sworn in Monday morning
but the court adjourned in re-
spect to Judge Charles D. Page,
Elgin, whose funeral was that af-
ternoon.

Resch agreement
Tuesday both parties involved
in the suit appeared with about
12 witnesses each. Meanwhile
Hadley and Leren, Wheaton law-
yers, had been obtained to rep-
resent Fidler; Perry and Elliott
for Kennedy. The attorneys got
together with the court and
reached an agreed settlement
whereby Kennedy paid less than
the amount due for the cattle.
He paid \$2,250 instead of the \$3-
600 originally promised.

300 scouts and leaders at annual Camporee

by ARNOLD HATCH

In spite of the inclement weath-
er, 262 Scouts and about 75
adult leaders participated in the
annual Camporee held at Camp
Dan Beard last week-end, June
13th through the 15th. Scouts be-
gan to arrive early Friday after-
noon so that they could be fully
prepared for the day's activities
on Saturday. These activities in-
cluded many types of scoutcraft
skills, such as knot tying, com-
pass, rope lashing, Morse
code and semaphore signalling, water
boiling, fire by flint and steel,
fire by friction and first aid.

At the camp fires on Friday
and Saturday evening, the enter-
tainment was furnished by the
scouts of the various troops and
ranged from campfire skits and
singing to story telling, music
and tricks of magic. The high-
light of the Friday evening camp-
fire was the Order of the Arrow
"tapping out" ceremony. The Or-
der of the Arrow, a national brother-
hood of honor campers, there
recognized the new candidates
for election and began the cere-
monies to honor these men. The
following men were elected to this
brotherhood: Dick Miner,
Troop 31, Skokie; Tom Hissem,
Troop 1, Park Ridge; Bob Moore,
Troop 2, Park Ridge; Stan An-
derson, Troop 41, Lincolnwood;

Jim Driver, Post 113, Des Plaines;
Don Heuer, Troop 24, Park Ridge;
Darrel Murray, Troop 27, Des
Plaines; Jack Baldridge, Troop
22, Des Plaines; Frank Svoboda,
Troop 42, Des Plaines; Carlyle
Roderick, Troop 23, Mt. Prospect;
Ronald Smith, Post 113, Des
Plaines; John Deininger, Troop 7,
Arlington Heights; Bernard
Brook, Troop 7, Arlington Heights;
Dean Whitton, Troop 26, Skokie;
Martin Freeman, S. M. Troop 7,
Arlington Heights and Wallace
De Buhr, Assistant Scout Execu-
tive.

Church services were conduct-
ed on the camp grounds on Sun-
day morning, with Rev. Milo
Vondracek of Arlington Heights
conducting the service. Those
Scouts who wished to attend
their own church services were
given the opportunity to do so.

After the church services, Mr.
Walter Stengel of the Des Plaines
Isaac Walton League conducted
the bait casting contest, and Mr.
Tegtmeyer of the American Red
Cross, Chicago Chapter, demon-
strated the use of the inhalator.
Troops throughout the camp
were organized on a patrol basis,
and the Scouts slept out of doors
and did their cooking out of
doors. Some fine exhibitions of

RAMBLE INN 'N OUTINGS

by BILL NORTH

Robert Campbell and his wife
Mrs. Lois Campbell are the new
Y.C. directors. They are really
great people. Mrs. Campbell is
interesting, demure, witty and
very beautiful. Mr. Campbell is
vital, virile, filled with ideas,
and very handsome. Together
they make one of the most in-
teresting and interested couples
in the community. The adult
and student committees feel that
the Campbells are going to real-
ly make a hit with the kids.
Come on in this Saturday and
meet them.

Already they have taken up
the reins and are planning for
this summer and next year. A
roller party has been tentatively
set for July 14. Also in the
planning stage is a beach party
and a lake cruise. This column
will carry additional news on
these activities when it is avail-
able.

Tomorrow night there will be
a meeting of the officers and
the new directors.

—Y.C.—

Here is the summer schedule
for Ramble Inn. The Y.C. will
be open every night till 10:00 in
the South Club Room of the
Field House starting this Satur-
day. There will be a lounge and
dancing. There will not be ping-
pong or a Y.C. run Coke bar.
However, refreshments may be
obtained down stairs.

—Y.C.—

We'd like to thank our two
original directors Mrs. Muriel
Mills and Mrs. Dorothy Hauff.
They kept the Y.C. running
whenever it faltered. It was to
a great extent their work, inter-
est, and ability that has made
Ramble Inn the fine Y.C. it is
today.

To you Mrs. Mills and Mrs.
Hauff, the kids at Ramble Inn
send their White Orchids and
eternal gratitude. You deserve
them. Good luck from the kids
at Ramble Inn.

—Y.C.—

We're all glad to hear that
Phil Erb who was in an auto-
mobile accident a few weeks ago
is all right now.

—Y.C.—

Arlington Heights is now rep-
resented by Ramble Inn in the
Metro-Chicago Association of
Youth Canteens. The Associa-
tion was started in 1944 and was
designed to encourage the estab-
lishment of Youth Centers. To-
day there are over twenty eight
youth centers associated with it.
James W. Gilman who is As-
sistant Executive Secretary of
the Chicago Recreation Commis-
sion is the adult director.

The advantages of the Metro-
Chicago Association of Youth
Canteens are numerous. It pro-
vides an opportunity of learning
of other Y.C.'s and how they
operate. It gives more influence
to each center. It provides a
means whereby problems affect-
ing one or more centers can be
solved by collective effort. It
helps to spread the Youth Cen-
ter movement much more effec-
tively.
